Software Technologies

I have a good understanding of the Flutter framework and its capabilities. My expertise in Flutter includes working with custom widgets, state management, and integrating with various APIs and services.

I am knowledgeable in other programming languages such as C#, GO, PHP and JAVA, as well as other technologies such as Firebase, Git, DAX for PowerBI, .NET and SQL for relational databases.

Work History

Flutter Developer – Remote

2022-11

Freddy Garcia -Quito

- Participated in continuous improvement by generating suggestions, engaging in problem-solving activities.
- Created a data driven interface for a flutter application, to create personalized reports.
- Conducted research, gathered information from multiple sources and presented results.
- Demonstrated respect, friendliness and willingness to help wherever needed.

Hobbies

Playing videogames, not only is it a fun and exciting hobby, but it also helps me to be a better developer, as it requires quick thinking, teamwork, problem-solving skills and the ability to work well under pressure. This helps me to better understand the importance of effective communication and teamwork.
